

# **LIGHTBALL** 360° Surround Light

PROGLOB | RIGLOB

- + Even and unparalleled 360° light distribution.
- + Made of UV - stable acrylic glass.
- + Solid metal socket fitting for both, the P- (PROGLOB) and V- (RIGLOB) bayonet types.
- + Inside diameter = 50 cm
- + The LIGHTBALL is perfectly suited for illumination of interiors, e.g. for daylight simulation in product shots, but it also delivers great results as a lighting accessory for innovative portraiture work.
- + Applicable with up to 650 W of halogen light.
- + Circumference = 157 cm
- + Further Applications: Background lighting and instant location lighting.

Lightball (RIGLOB, V-bayonet) with XENOLUX 500 compact flash unit.

Recommended for use with the following units:

- + PROFILUX
- + VARI
- + XENOLUX
- + MAGNOLUX
